

Footpath number	Description	August 2023
RP1	RP1 is the track up from off the left of the Towcester Road and runs east out of the village. It becomes RF12 (another jurisdiction - Buckinghamshire according to the footpath marker) at the end of the track - 1st stile you come to.	Checked May 2023, no issues.
RP2	RP2 starts on the Northampton Road, by the playing field and travels out of the back of the playing field, behind the industrial units and across the 'potato field' to the brook. The other side of the brook is footpath FE5, another jurisdiction.	Checked July 2023, no issues. Stile at start of footpath removed to ease access.
RP3	RP3 runs from beyond the last house on the right (East) of Farthingstone road heading away from Litchborough. It runs north until it hits the brook and becomes FE4 on the other side of a small bridge. FE4 belongs to another footpath jurisdiction.	Checked August 2023, no issues.
RP4	RP4 forks off RP16 in a north westerly direction where RP5 continues in a south westerly direction. We're not exactly sure of the point but it appears to be near the first stile.	Checked April 2023, no issues.
RP5	RP5 extends from the end of RP16 in a south westerly direction toward the Banbury Road (we think).	Checked April 2023, no issues.
RP6	RP6 is a short footpath starting farther along the main road just up from where RP5 meets the road.	This is a wide track unlikely to become overgrown and without stiles so is not routinely checked.
RP7	Does not exist	
RP8	RP8 starts beyond Hay Barn on the right of the Towcester Road heading West to the Banbury Road	Checked August 2023, no issues.
RP9	RP9 is a long footpath and starts behind the village green and heads south along the east side of the old cricket pitch. It meets RP10 and forks right (south west and crosses RP8 (stile) and heads west (north of Tivy Farm) and then takes a sharp left (south) and passes a pond on its left (west of Tivy Farm) and hits the top road. The footpath continues beyond the top road south (it is signposted to the south and north) to a field delimiter just beyond some farm buildings and hits footpath RC11 which is a different jurisdiction.	There are two parts to this footpath. North of the top road has been checked July 2023. South of the top road RP9 is a wide track through farm land and without stiles so is not routinely checked.
RP10	RP10 starts about two thirds of the way along RP9 from behind the green on the east side of the old cricket pitch. See above. RP10 crosses RP8 (see above) and continues south (east of Tivy farm) and hits the top road. The continuation of RP10 (it is signposted) south of the top road is a hundred yards or so along the top road (west). RP10 runs parallel to RP9 also hitting RC11. At this point, RP10 is signposted heading north.	There are two parts to this footpath. North of the top road has been checked July 2023. South of the top road RP10 to be checked.

Footpath number	Description	August 2023
RP11	RP11 starts on the top road about 100 yards the other side of the continuation of RP10 (it is signposted) and travels south east until it hits the single track road that takes you from the Towcester Road past Foxley Lodge and Foxley House to Banbury Lane. There is a bit of a stile and a slab of concrete which are enough to gain access from the top road.	Checked start of footpath on top road July 2023, entrance clear but no path through crop. Checked start of footpath off Foxley Road July 2023, cut back entrance. Clear path through first field. Finger post loose. Reported.
RP12	RP12 is a short footpath from the start of the single track road to Foxley, to the Caswell Road, thus cutting off the corner.	There is no signage or evidence that this footpath has ever been in place/used. No further action to be taken.
RP13	RP13 is off the single track road to Foxley, from just before Foxley Lodge, west toward Seawell farm/reserve and RC11 and RC15.	Checked August 2023, no issues.
RP14	RP14 is off the single track road but from beyond Foxley House in a south easterly direction.	Checked August 2023, no issues.
RP15	RP15 is a tiny footpath North East of the village, off the Northampton Road toward the A5, beyond Radmore Farm.	Checked August 2023, cut back.
RP16	RP16 is the start of the Knightly Way up Kiln Lane off the Banbury Road.	Checked August 2023, no issues.
