

| Footpath number | Description   | Summer/Autumn 2020   |
|-----------------|---|--|
| RP1             | RP1 is the track up from off the left of the Towcester Road and runs east out of the village. It becomes RF12 (another jurisdiction - Buckinghamshire according to the footpath marker) at the end of the track - 1st stile you come to.  | All fine   |
| RP2             | RP2 starts on the Northampton Road, by the playing field and travels out of the back of the playing field, behind the industrial units and across the 'potato field' to the brook. The other side of the brook is footpath FE5, another jurisdiction.   | Crop harvested so not a problem to get across the field but the route/path isn't clear. No further action required however.                            |
| RP3             | RP3 runs from beyond the last house on the right (East) of Farthingstone road heading away from Litchborough. It runs north until it hits the brook and becomes FE4 on the other side of a small bridge. FE4 belongs to another footpath jurisdiction.  | All fine   |
| RP4             | RP4 forks off RP16 in a north westerly direction where RP5 continues in a south westerly direction. We're not exactly sure of the point but it appears to be near the first stile.  | 2nd stile beyond V bridge is a little wobbly but not thought enough to be dangerous. Last field still to be checked when cattle are in for the winter. |
| RP5             | RP5 extends from the end of RP16 in a south westerly direction toward the Banbury Road (we think).  | All fine   |
| RP6             | RP6 is a short footpath starting farther along the main road just up from where RP5 meets the road.   | All fine   |
| RP7             | <b>Does not exist</b>   |  |
| RP8             | RP8 starts beyond Hay Barn on the right of the Towcester Road heading West. The footpath has a post showing the start and stiles taking the walker to along the wall which is the 'official' route for the footpath.  | This footpath has been re-routed but markers are in place so all fine.   |
| RP9             | RP9 is a long footpath and starts behind the village green and heads south along the east side of the old cricket pitch. It meets RP10 and forks right (south west and crosses RP8 (stile) and heads west (north of Tivy Farm) and then takes a sharp left (south) and passes a pond on its left (west of Tivy Farm) and hits the top road. The footpath continues beyond the top road south (it is signposted to the south and north) to a field delimiter just beyond some farm buildings and hits footpath RC11 which is a different jurisdiction. | All fine   |
| RP10            | RP10 starts about two thirds of the way along RP9 from behind the green on the east side of the old cricket pitch. See above. RP10 crosses RP8 (see above) and continues south (east of Tivy farm) and hits the top road. The continuation of RP10 (it is signposted) south of the top road is a hundred yards or so along the top road (west). RP10 runs parallel to RP9 also hitting RC11. At this point, RP10 is signposted heading north.   | All fine   |

| Footpath number | Description   | Summer/Autumn 2020  |
|-----------------|---|---|
| RP11            | RP11 starts on the top road about 100 yards the other side of the continuation of RP10 (it is signposted) and travels south east until it hits the single track road that takes you from the Towcester Road past Foxley Lodge and Foxley House to Banbury Lane. There is a bit of a stile and a slab of concrete which are enough to gain access from the top road. | All fine  |
| RP12            | RP12 is a short footpath from the start of the single track road to Foxley, to the Caswell Road, thus cutting off the corner.   | No longer used/required.  |
| RP13            | RP13 is off the single track road to Foxley, from just before Foxley Lodge, west toward Seawell farm/reserve and RC11 and RC15.   | Foxley Road end fine, other end to be double checked when no cattle in field. |
| RP14            | RP14 is off the single track road but from beyond Foxley House in a south easterly direction.   | All fine  |
| RP15            | RP15 is a tiny footpath North East of the village, off the Northampton Road toward the A5, beyond Radmore Farm. Slightly wobbly sign post (top metal tie has broken) and grubby but visible.  | To be checked   |
| RP16            | RP16 is the start of the Knightly Way up Kiln Lane off the Banbury Road.  | All fine  |
